***FINN FIND OUT***

**In this section you can find out  
more about different genres  
and styles of music.**

# REGGAE

Reggae is a kind of music from Jamaica. It started in the late 1960s but became famous in the 1970s. The music has regular chops in rhythm the back beat (off-beat). These are called "skank" and are played by a rhythm

guitarist. The bass drum hits on the second and fourth beats of each bar. These are called the "drop".

Reggae bands also use a bass guitar, keyboard or organ, saxophone, trumpet and trombone. Reggae songs often have lots of backing singers.

Reggae music is often used by Rastafarian groups. The songs are usually about religion, love and social problems. Famous reggae artists are Bob Marley, Shaggy, The Specials and UB40.

## CHAPTER 2

# OPERA

Opera is a staged drama that is set to music throughout, and every word is sung instead of spoken. An opera is typically performed in opera house with an orchestra providing the musical accompaniment.

Opera singers need to have powerful voices to be heard! An opera is normally divided into two, three, four or even five acts. In some operas the music is continuous throughout an act and between vocal pieces there are sometimes orchestral overtures and interludes. In others the music is separated by spoken dialogue or recitative (a dramatic type of singing that is like speech). An opera is typically a collaboration between a composer and librettist.

**CAN YOU NAME A FAMOUS OPERA AND ITS COMPOSER?**

A composer is an artist who writes music to be played or performed by musicians.

# JAZZ

Jazz is a type of music which was invented in the United States and combines African-American music with European music. Jazz first became popular in the 1910s. It is still a popular music to play and hear because of

the different styles. Some common jazz instruments include the saxophone, trumpet, piano, double bass, and drums. One important part of jazz is improvisation, which means the person playing is making music up as they go along. A piece of jazz music may have several solos where one player will improvise while the rest of the band, except for the rhythm section (such as the piano, bass, or drums), does not play.
